

Izi ID and Atom ADR 300: The complete solution for identity document authentication

In a world where identity document verification is essential to prevent fraud, **Izi ID**, combined with the **Atom ADR 300** passport reader from HID, offers a simple and efficient solution. Whether it's passports, visas, or driver's licenses, this combination ensures fast and precise document verification.

.....Izi ID

Izi ID

- Simple and intuitive interface, usable without specific training.
- Compatible with a large database of international documents.
- Advanced algorithms for detecting document fraud.
- Customizable audit and analysis report options.

Atom ADR 300

- Compact and lightweight: ideal for integration in any environment.
- Multi-format reading: passports, ID cards, driver's licenses.
- UV, IR, and visible image capture and OCR.
- RFID/NFC compatible for quick reading of electronic chips.

ATOM ADR 300

Key benefits

- Fast verification of passports, visas, and other documents.
- Precise authentication thanks to advanced algorithms.
- Automatic data extraction for direct integration.
- Intuitive interface, no specific training required.
- RFID/NFC compatibility for reading electronic chips.

Why choose Izi ID?

Izi ID is an identity document verification software designed to be used with passport readers like the Atom ADR 300.

It not only verifies the authenticity of documents but also extracts and formats data for direct integration into your systems.

Easy to use and requiring no complex training, Izi ID is the ideal solution for businesses and organizations looking to secure their operations while simplifying their processes.

Atom ADR 300: Performance and reliability

The Atom ADR 300 passport reader is compact and versatile, capable of reading a wide range of international identity documents. It captures images in UV, IR, and visible light, and is compatible with RFID/NFC chips.

When used with Izi ID, this reader allows documents to be verified in seconds, providing a reliable and fast solution for document authentication.
